Version Comparison: v1 vs v3

Summary

This document compares two versions of the basic information schema for EOR

- **Version 1:** The legacy implementation
- **Version 3:** The new implementation that we should use

> Version 3 is available with remoteoss/remote-flows 1.2.3

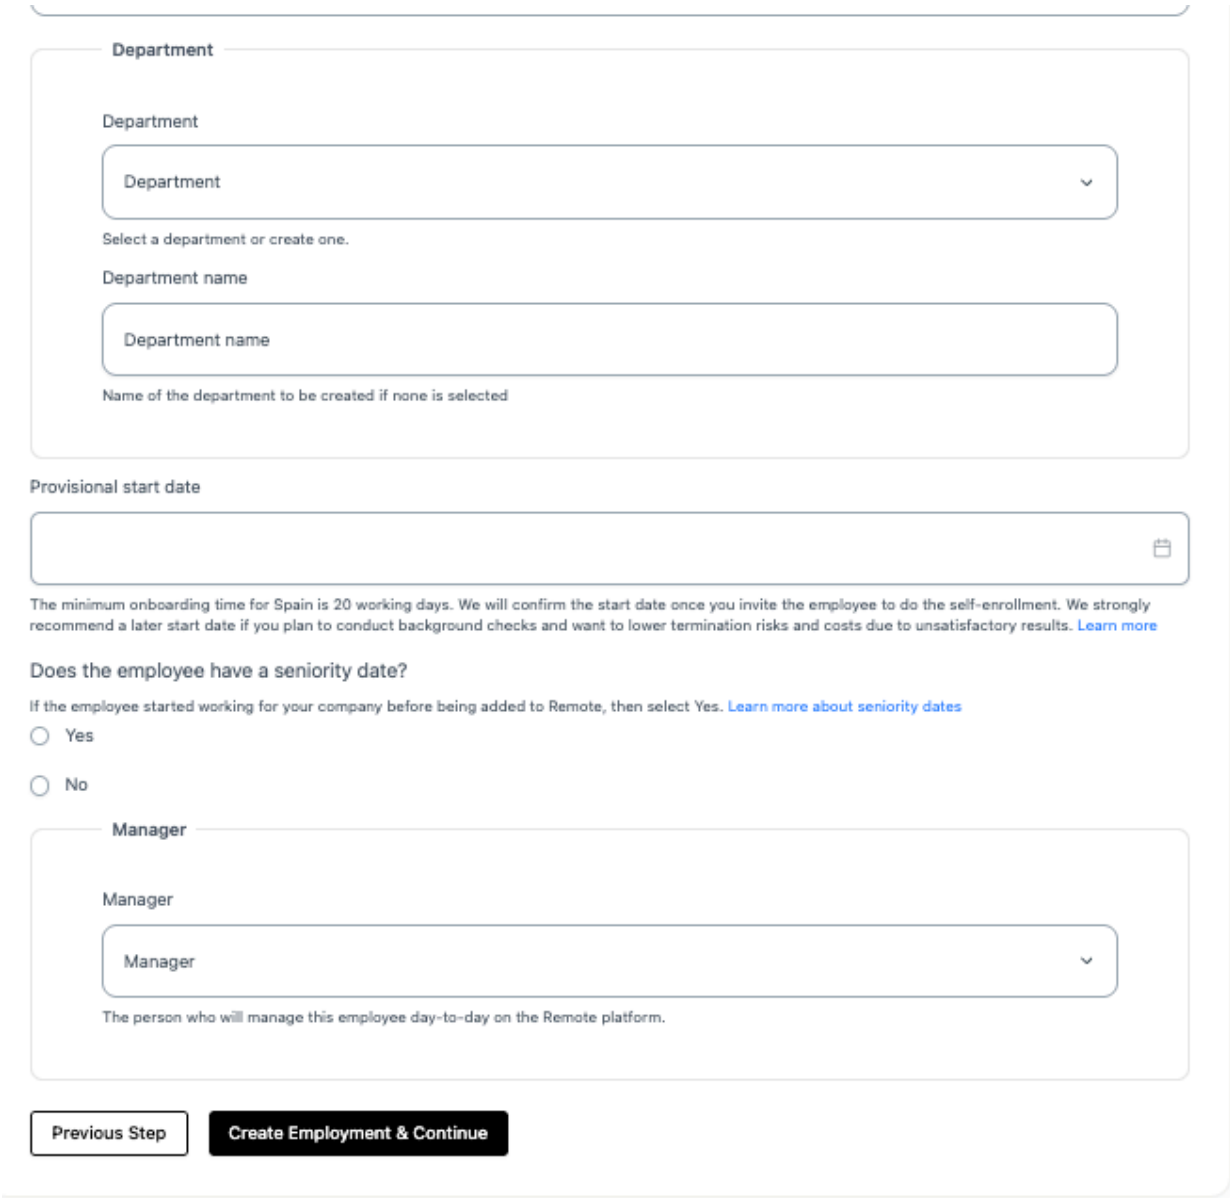
Key Changes

- Department and Manager field removed
- KOR, BRA, JAPAN seniority not recognized
- Argentina acknowledgement field
- Seniority fieldset for the rest of the countries

1. Department && Manager deletion

The fields no longer appear

Before



Department
Department
Department
Select a department or create one.
Department name
Department name
Name of the department to be created if none is selected
Provisional start date
The minimum onboarding time for Spain is 20 working days. We will confirm the start date once you invite the employee to do the self-enrollment. We strongly recommend a later start date if you plan to conduct background checks and want to lower termination risks and costs due to unsatisfactory results. Learn more
Does the employee have a seniority date?
If the employee started working for your company before being added to Remote, then select Yes. Learn more about seniority dates
Yes
No
Manager
Manager
Manager
The person who will manage this employee day-to-day on the Remote platform.
